

**ANEXOS:**  
**ANEXO I - PARAMETROS URBANISTICOS**

**Taxa de Ocupação do Solo - TO**

Porcentagem máxima que você pode ocupar do terreno com a construção, tem o nome de taxa de ocupação

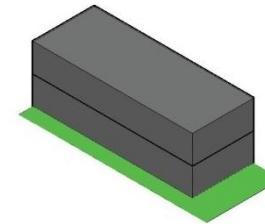

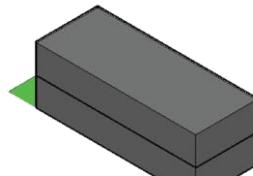

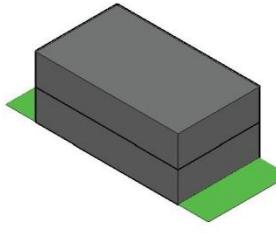

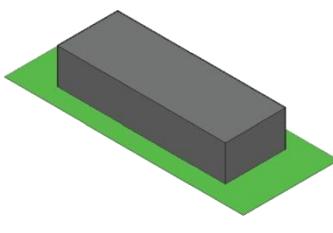

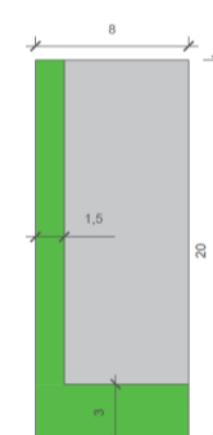

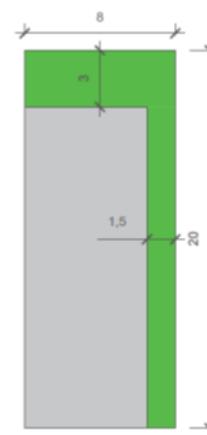

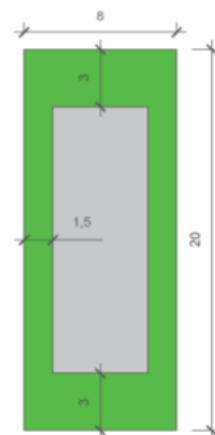

h

## Afastamentos

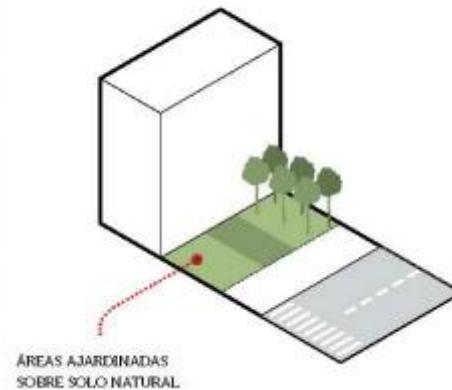

Os Afastamentos representam as distâncias que devem ser observadas entre a edificação e as linhas divisórias do terreno, constituindo-se em afastamento frontal, lateral e de fundos.

 Afastamentos     Área construída

## Taxa de Solo Natural

Porcentagem do lote que permite a infiltração de água no solo.

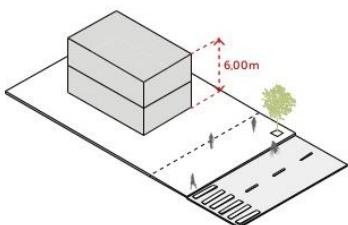

## Gabarito Máximo

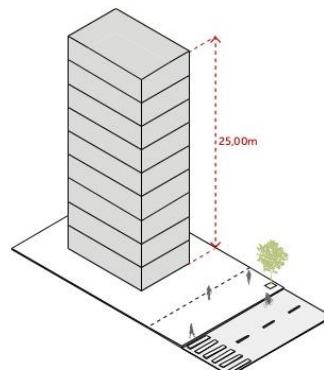

É a altura da edificação, calculada pela distância Entre o piso térreo e o ponto mais alto da Cobertura. Serve para calcular a altura máxima que a edificação pode ter. Para o cálculo do Gabarito, 1 pavimento equivale a 3m de altura.

Situação demonstrativa

Gabarito de 6,00m

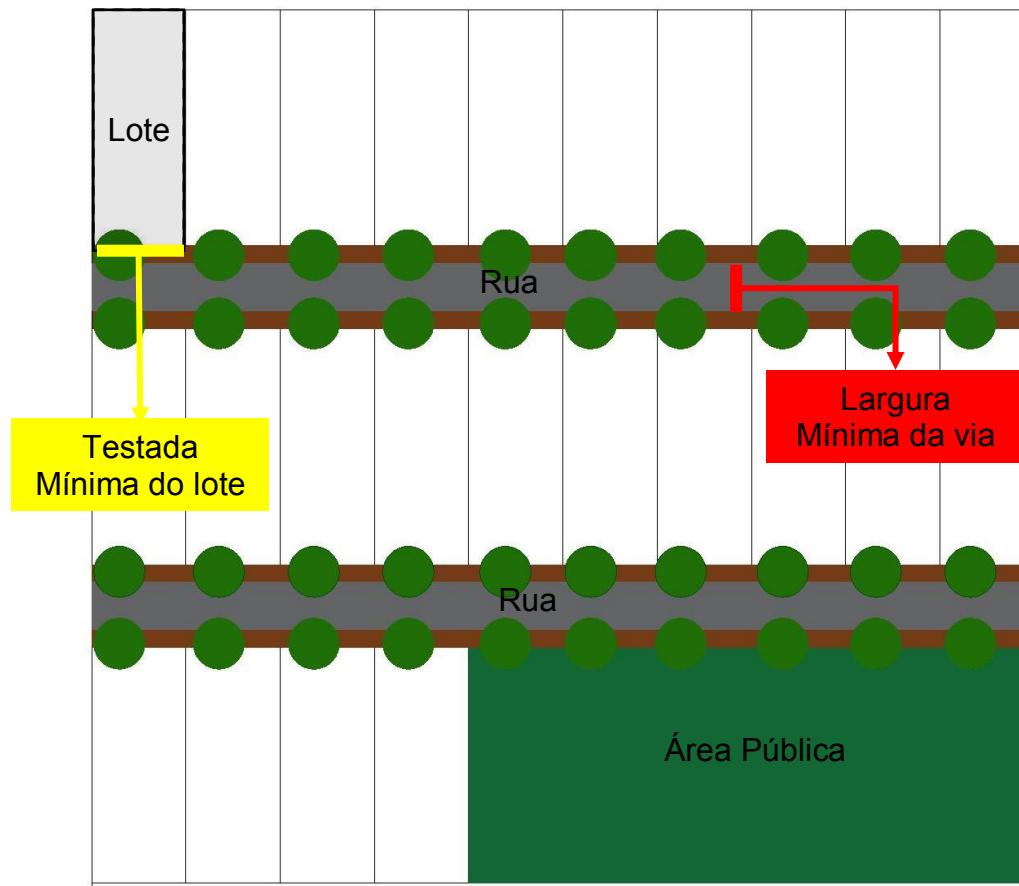

Gabarito de 25,00m

## Loteamentos

Lote Mínimo corresponde à dimensão de lote mínimo, expressa em metros quadrados ( $m^2$ ), exigido para novos parcelamentos ou para desmembramentos em áreas já parceladas.

Testada Mínima é a dimensão mínima, de extensão linear do lote, no limite com o logradouro público, expressa em metro linear (m).

### OBSERVAÇÕES

1. As edificações com até 3 (três) pavimentos poderão colar em 2 (duas) das divisas laterais e de fundos, obedecendo às seguintes condições:

I - quando colarem em 2 (duas) divisas laterais, deverão manter um afastamento mínimo de 3m (três metros) da divisa de fundos;

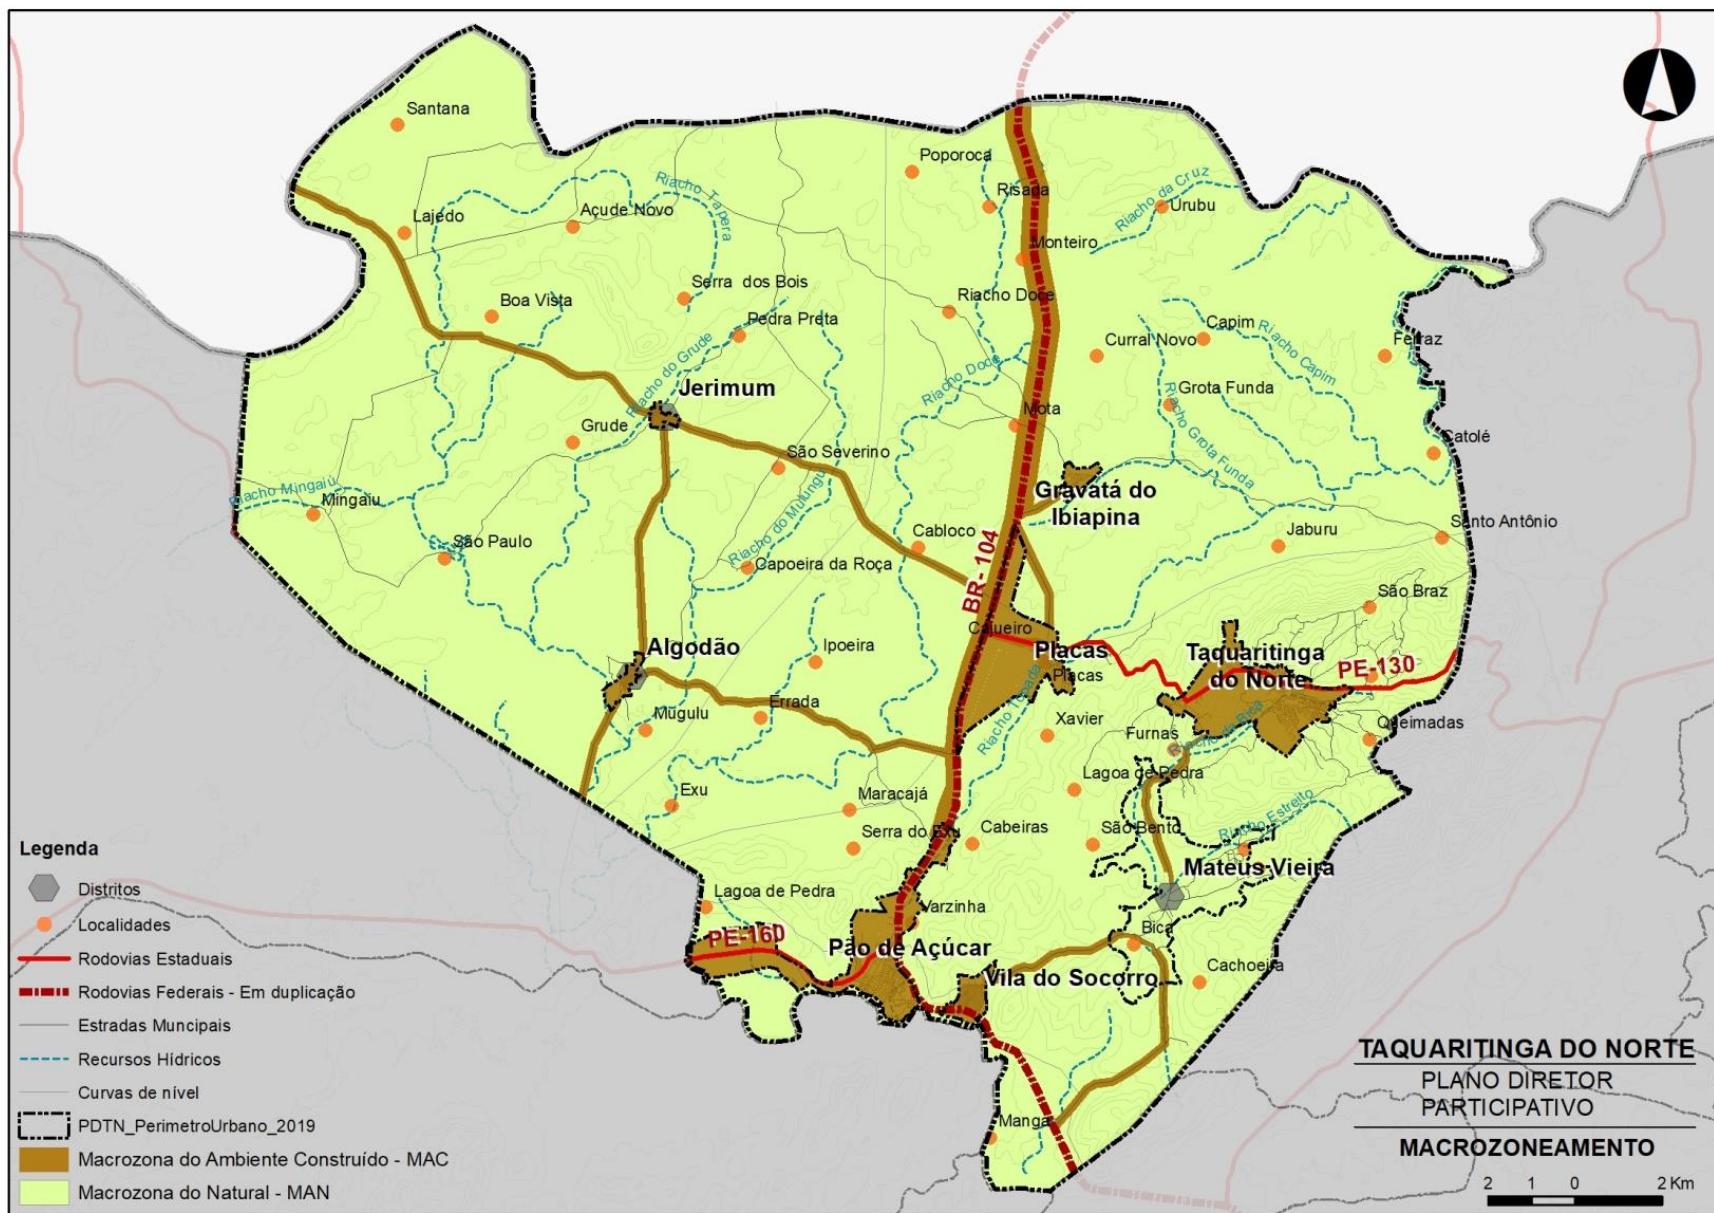

II - quando colarem em uma divisa lateral e uma divisa de fundos, deverão manter um afastamento mínimo de 1,50m (um metro e cinquenta centímetros) da outra divisa lateral;

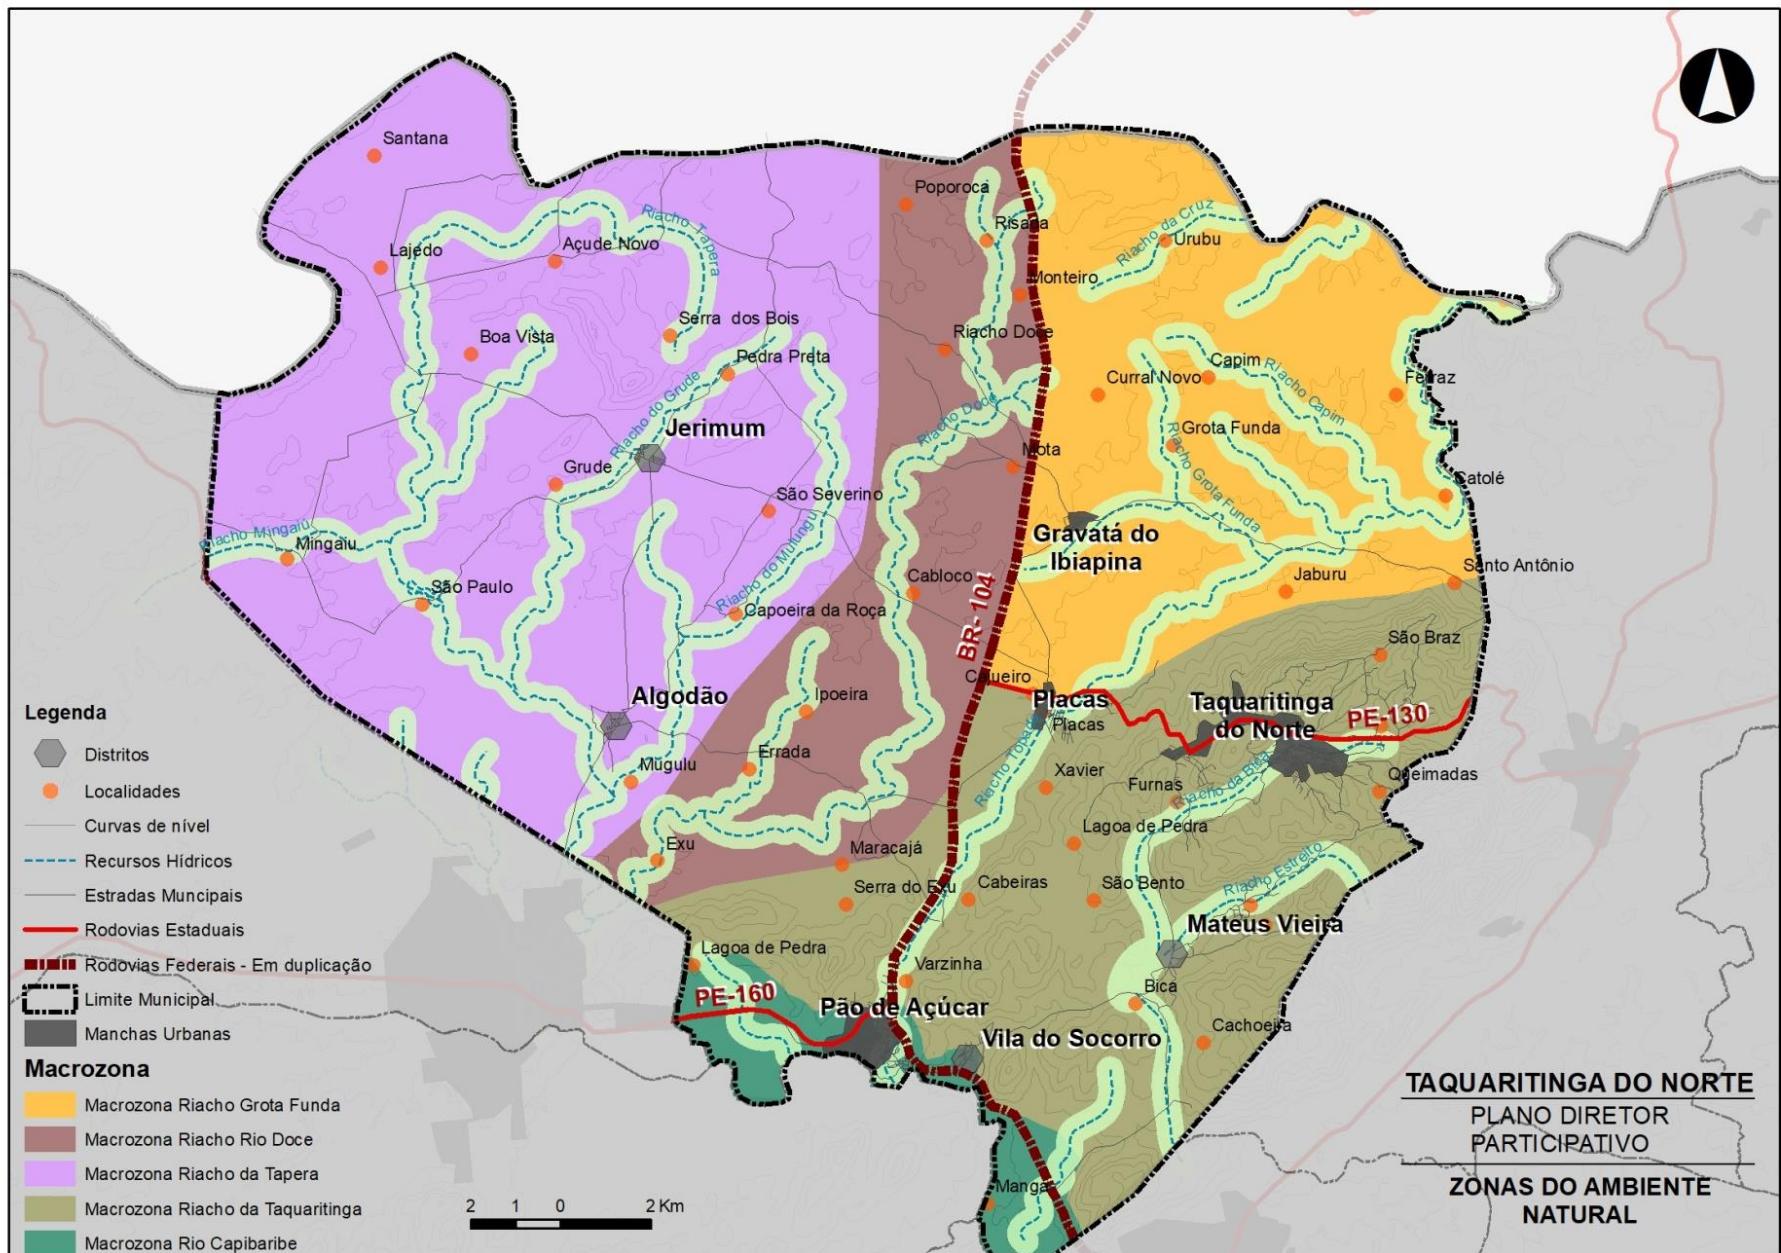

III - a altura total das edificações coladas nas divisas laterais e/ou de fundos não poderá exceder à cota de 7,50m (sete metros e cinquenta centímetros), cota esta medida a partir do meio-fio;

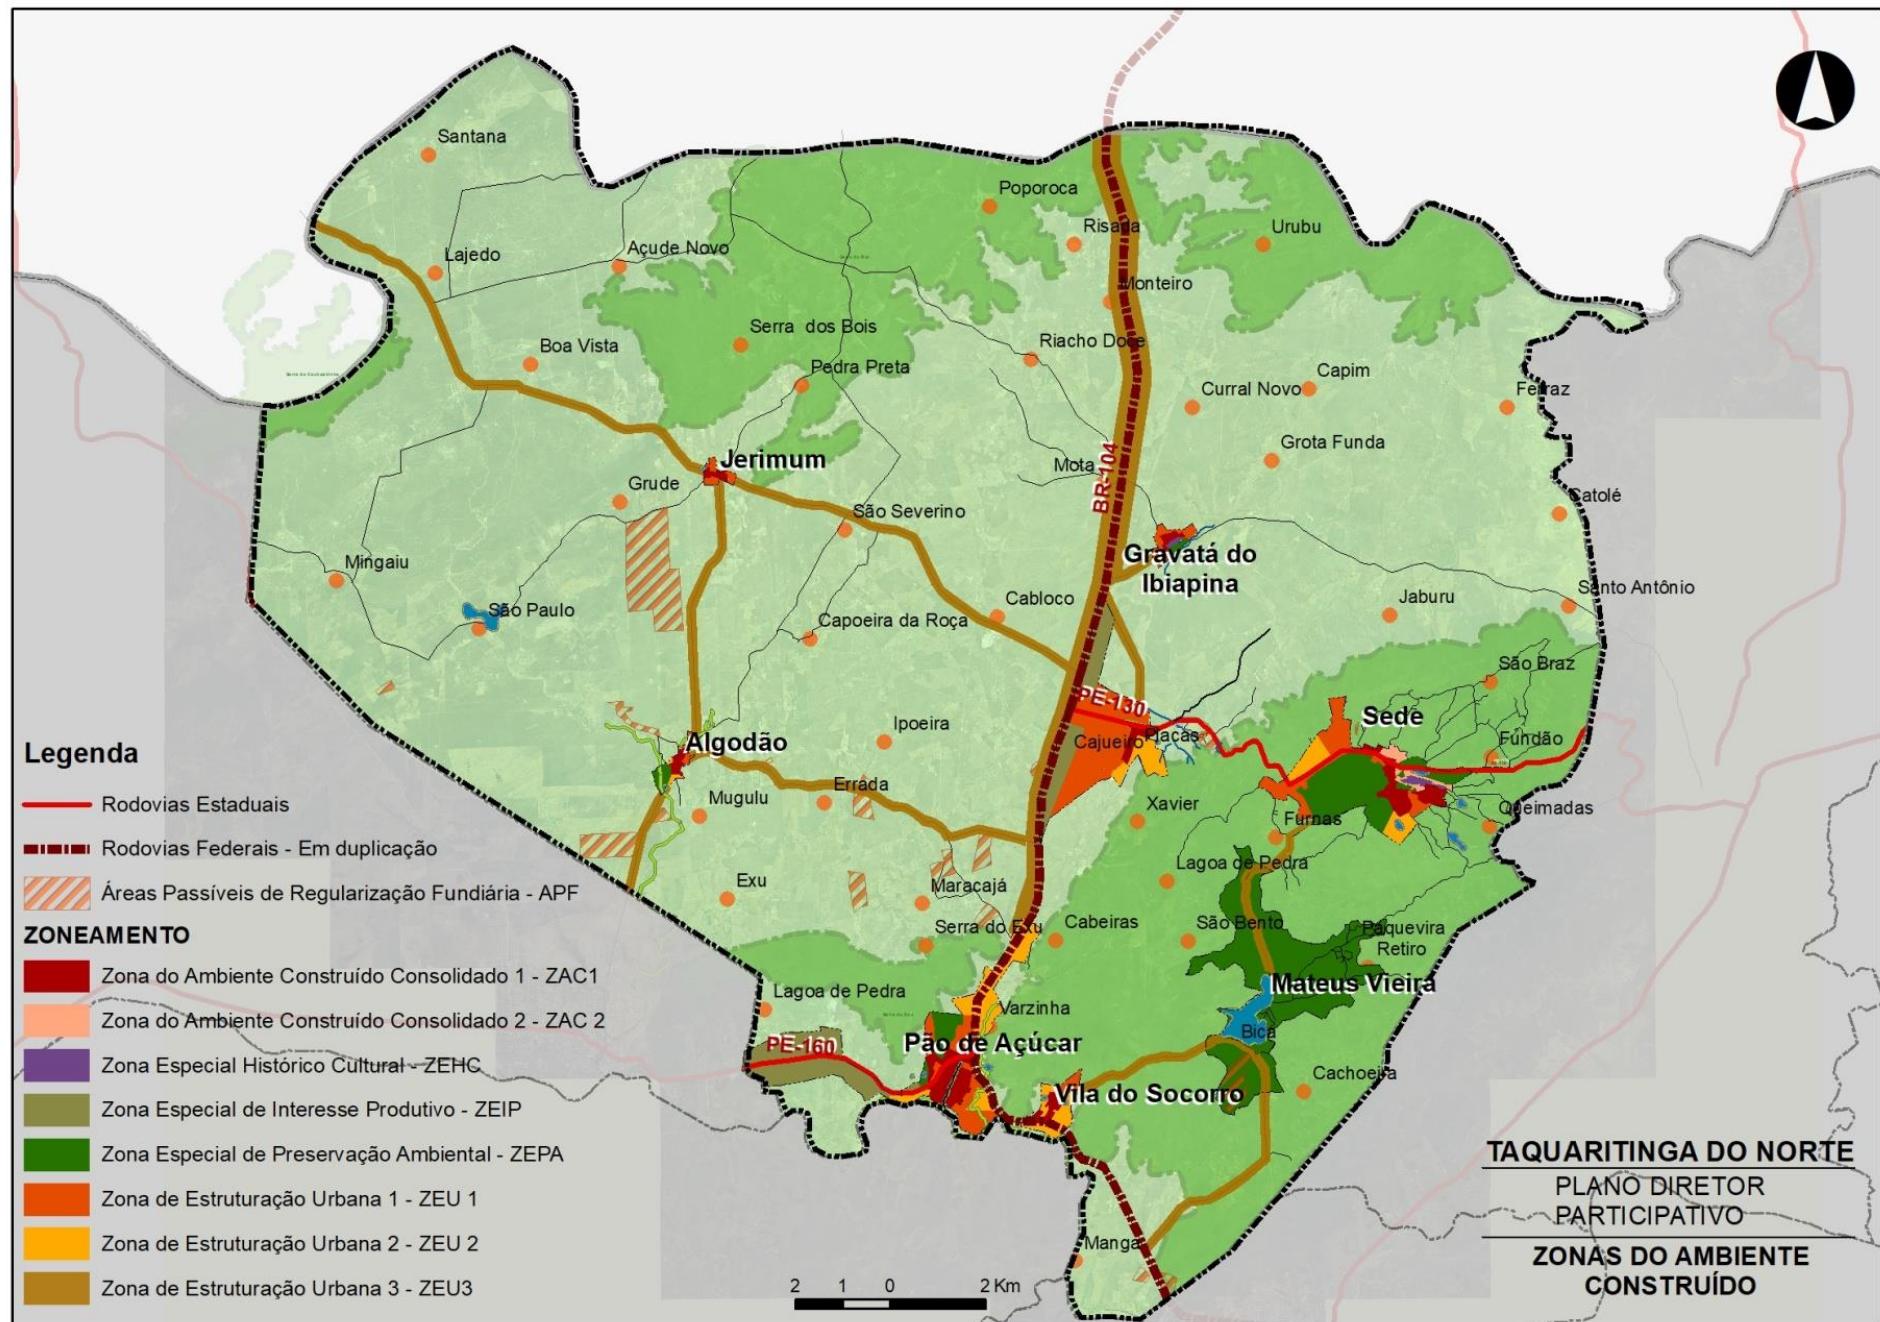

IV - Para as edificações com até 3 (três) pavimentos, quando apresentarem vãos abertos, o afastamento mínimo para as divisas será de 1,50m (um metro e cinquenta centímetros).

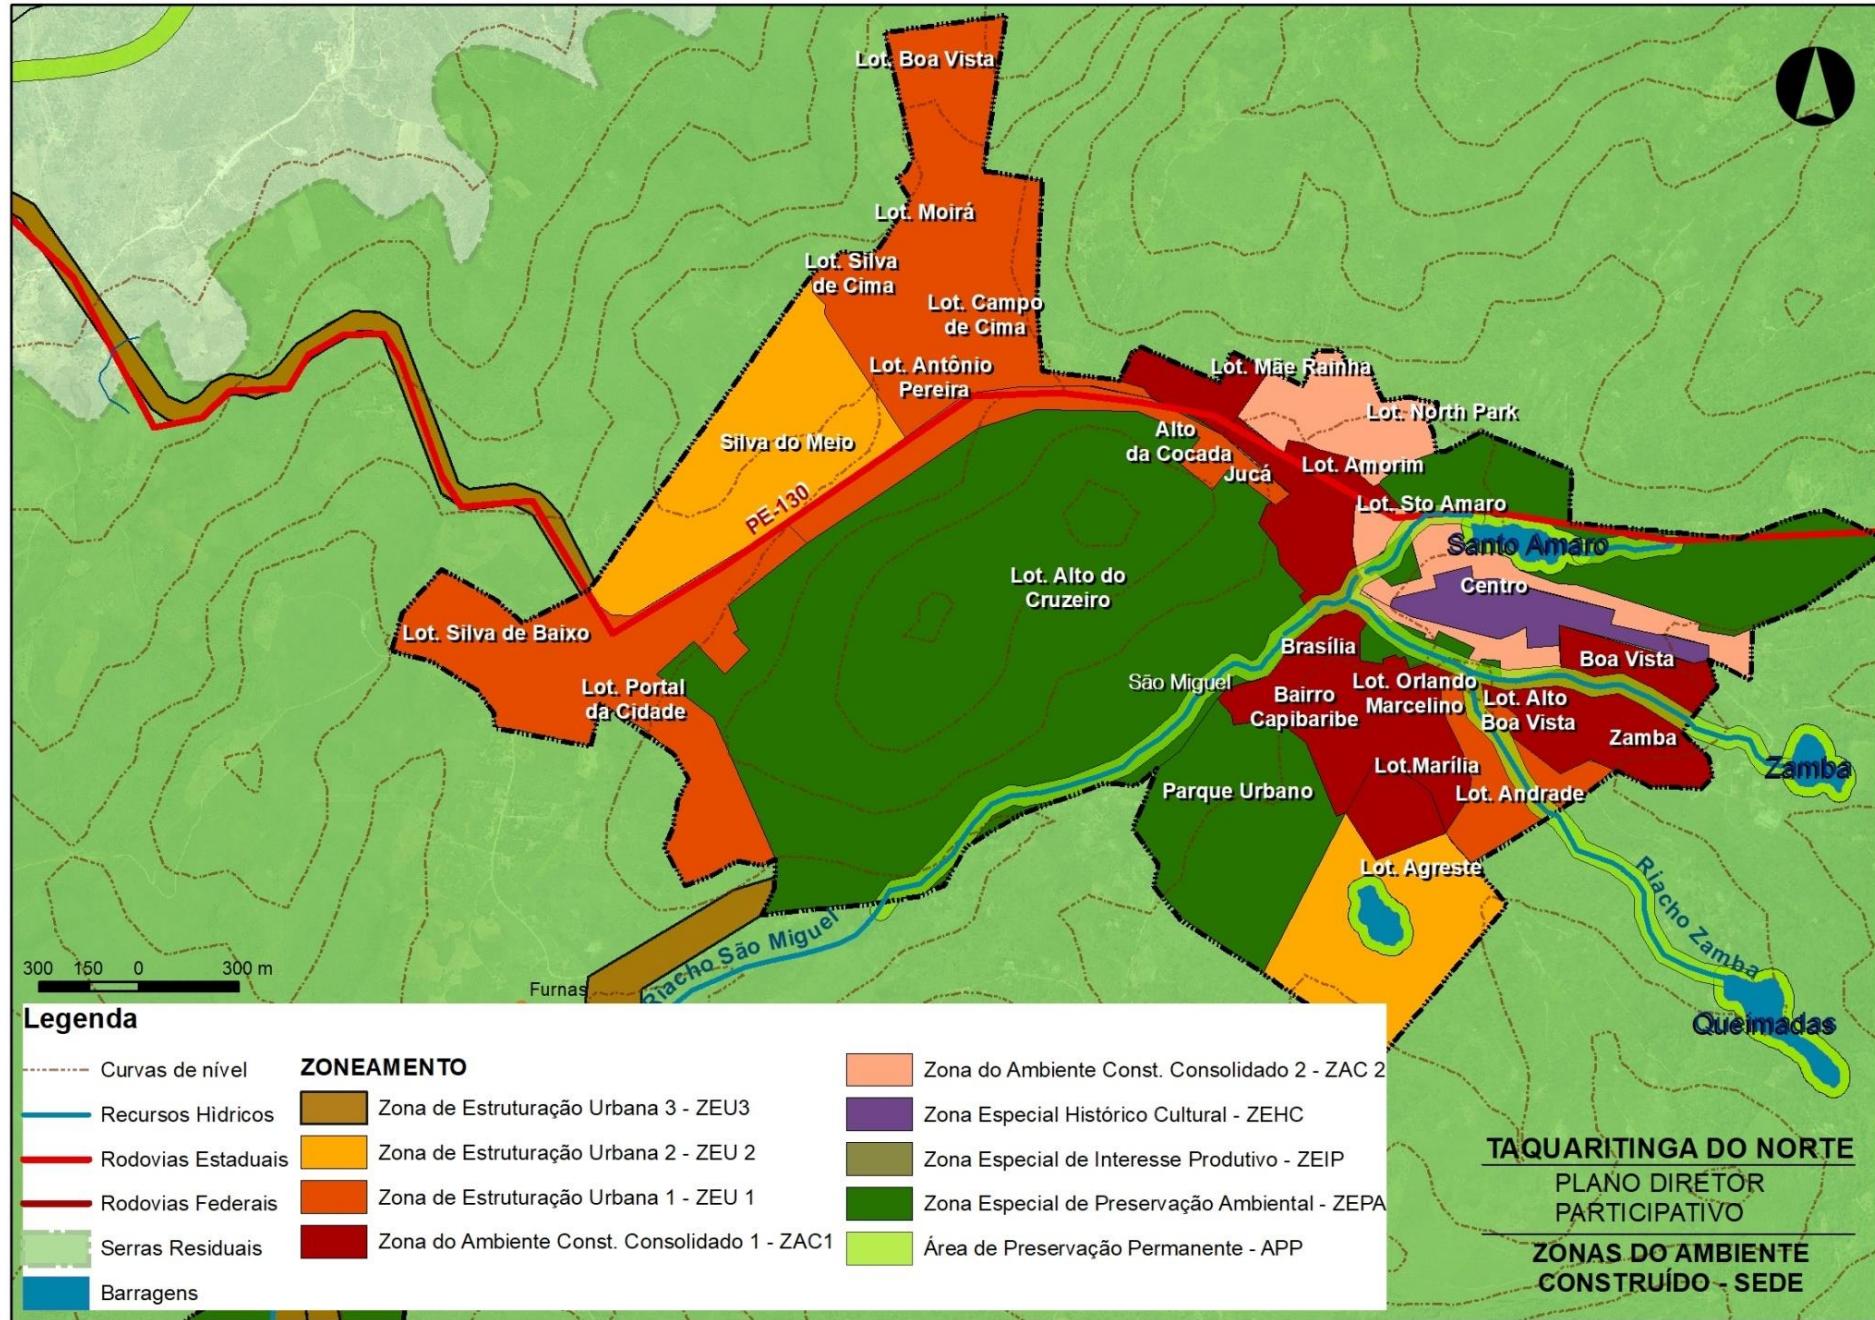

2. A largura mínima dos passeios públicos é de 1,50m (um metro e cinquenta) deverão respeitar as norma da ABNT;
3. As edificações em área de morro, leitos de rio e riachos e entrono de Açudes deverão seguir as orientações do Código Florestal lei nº 12.651 de 25 de maio de 2012;
4. Objeto de Análise especial e deverá ser aprovado pelo CDU que deverá observar as diretrizes deste plano para a zona específica;
5. As intervenções urbanísticas e arquitetônicas na ZECH deverão ser objeto de análise especial, realizada por técnicos e órgãos responsáveis pela preservação do patrimônio histórico cultural do município;
6. As Zepas deverão respeitar os orientações do Código Florestal nas áreas de APP, e os projetos desenvolvidos para essas zonas deverão ser objeto de Plano Específico, sendo acompanhado e aprovado pelo CDU;
7. Projetos Especiais na ZEU 4, deverão respeitar as normas de acessibilidade da ABNT NBR 9050;
8. Os parâmetros urbanístico serão aplicados após aprovação deste plano e serão válidos para as novas construções, não precisando adequar as construções existentes;
9. Para loteamentos de Interesse público, será permitido o lote mínimo de 125m<sup>2</sup> após análise especial do CDU;
- 10.** Para aprovação de projetos de condomínios fechados, deverão ser respeitadas as definições das leis nº 6.766/79, nº 4.591/64, nº 13.465/2017 e deverão passar por análise especial, mediante avaliação de impacto ambiental, e aprovados pelo CDU.
